Career Objective

Motivated B.Tech graduate seeking an entry-level Data Analyst role with skills in Python, SQL, Excel, and Power BI. Skilled in data analysis, data cleaning, visualization, and deriving insights to support data-driven decisions.

Education

B.Tech - Computer Science and Engineering Sept 2022 – April 2026
Specialization: IoT and Automation

- CGPA : 8.52
- Siddartha Institute of Science and Technology, Puttur

Technical Skills

- **Programming:** Python, SQL
- **Data Analysis:** Excel, Pandas, NumPy, Data Cleaning, Exploratory Data Analysis
- **Data Visualization:** Power BI, Tableau
- **Database:** MySQL
- **Tools:** Git, GitHub, VS Code

Projects

Rice Type Classification using CNN

- Analyzed and processed rice image data to classify rice types using a CNN-based machine learning model with 95% accuracy.
- Performed data preprocessing and evaluation to identify patterns and improve classification performance.
- **Technologies:** Python, Pandas, NumPy, TensorFlow/Keras

Internships

Full Stack Web Development Intern, SURE ProEd Oct 2025 – May 2026

- Completed a 6-month internship with a GPA of 9.7/10.0, gaining practical experience in software development, database integration, and application data.
- Managed 1 project repository using Git and GitHub for version control and collaboration.

Certifications

- Completed IPR virtual training by Siddartha Institute of Science and Technology, Puttur
- Completed AI and ML Internship by SmartBridge in collaboration with APSCHE

Extracurricular Activities

- Participated in a 24-hour Hackathon (Siddartha Hackfest 2K25)
- Volunteered in college technical and cultural events

Additional Information

Languages: English, Telugu, Tamil
Soft Skills: Analytical Thinking, Problem Solving, Communication, Teamwork, Adaptability
